

Awareness Program Report

on

Integration of AI in Teaching Learning by the School of Management & Commerce

The School of Management and Commerce, Vikrant University, Gwalior, conducted a one-hour Awareness Program titled “Integration of AI in Teaching Learning” on 24 Feb’26 to introduce undergraduate and postgraduate management students to the academic and managerial applications of Artificial Intelligence (AI). The session aimed to enhance awareness of AI tools for students, their practical utility in learning, and their relevance to modern business environments. The initiative signified an initial strategic move toward developing an AI-enabled academic ecosystem, while also paving the way for broader AI integration in learning across other departments of Vikrant University, Gwalior.

Overall Report of the Activity

Date: 24th February, 2026

Subject: Integration of AI in Teaching Learning

Introduction:

The School of Management and Commerce, Vikrant University, Gwalior, organized a one-hour Awareness Program titled “Integration of AI in Teaching Learning” on 24 February 2026. The program was designed to familiarize undergraduate and postgraduate management students with the academic and managerial applications of Artificial Intelligence (AI). It aimed to enhance students’ awareness of AI tools, highlight their practical relevance in learning processes, and underscore their significance in contemporary business environments. This initiative marked a strategic step toward establishing an AI-enabled academic ecosystem within the department and laid the groundwork for extending AI integration across other departments of the University.

Participants:

Faculties and Students of BBA, B Com, MBA from School of Management and Commerce.

Description:

The aim of the program was to familiarize undergraduate and postgraduate management students with the academic and managerial applications of Artificial Intelligence (AI), enhance their awareness of AI tools and their practical utility in learning, and highlight the relevance of AI in contemporary business environments. It also sought to encourage responsible and informed use of AI technologies while supporting the development of an AI-enabled academic ecosystem within the department.

Outcome of the Activity:

- Enhanced understanding of foundational AI concepts and their relevance to management education and practice.
- Improved ability to utilize AI-powered tools for note-taking, research assistance, data analysis, and presentation development.
- Increased awareness of the role of AI in managerial functions such as marketing, finance, human resources, and operations.
- Strengthened commitment to the ethical and responsible use of AI in academic and professional contexts.

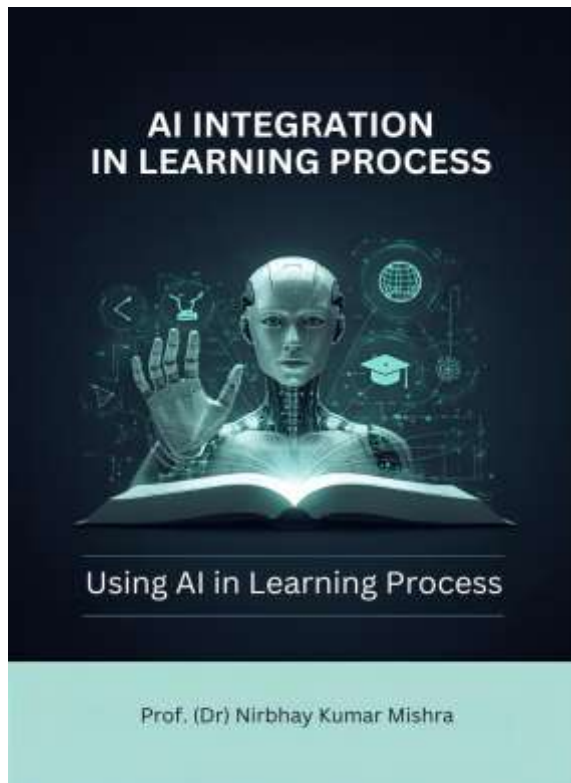

VIKRANT UNIVERSITY, GWALIOR

Conclusion:

The workshop successfully introduced management students to the growing importance of Artificial Intelligence in learning and professional practice. With AI becoming a central component of business operations, the session equipped students with foundational skills and awareness to AI.
